

Intrado Life & Safety Announces Live Virtual Public Safety Event: 911 Live | The Frontline

September 24, 2020

Event to be held October 6-7, 2020, featuring panel discussions, use cases, and live Q&A with several renowned public safety industry experts

OMAHA, Neb., Sept. 24, 2020 (GLOBE NEWSWIRE) -- [Intrado Corporation](#) ("Intrado" or the "Company"), a global leader in technology-enabled services, will host a two-day virtual event for the public safety community that will explore the emerging technologies and trends impacting the future of emergency communications. This is a free event open to anyone interested in public safety.

[911 Live | The Frontline](#) features a wide variety of thought leaders and stakeholders within the public safety and emergency communications space. Technology partners, government agencies, and industry associations scheduled to present include: Intrado, ADT, Microsoft, RapidSOS, and the National Emergency Number Association (NENA). Non-profits and public safety entities including Palm Beach County Department of Public Safety, North Dakota Association of Counties, California Governor's Office of Emergency Management, San Diego County Sheriff's Department, and North Central Texas Emergency Communications (NCT9-1-1) will also participate.

Topics span the gamut of emergency communications' concerns including Next Generation 911 (NG911) issues, artificial intelligence (AI) in emergency communications, Internet of Things (IoT), cloud-based operations, standards compliance, and more.

The virtual event will be broadcast using [Intrado Studio](#), allowing attendees to engage in expert-led, hands-on sessions including:

- **Real World 911: Facing the Challenges to Gain New Benefits** – Learn and discuss the benefits of sweeping innovations driving the future of emergency communications
- **Empowering PSAPs and Supporting Agencies with Lifesaving Data** – A thought-provoking panel discussing the progressive data and technology policies in public safety
- **Leveraging Artificial Intelligence to Deliver Safer Outcomes** – Understand how PSAPs can meet the ever-evolving needs of communities with AI and machine learning
- **911 Revolution: Technology & The Future of 911** – 911 experts will explore how technologies are driving change in public safety and emergency communications

A Media Snippet accompanying this announcement is available by clicking on the image below:

"911 Live highlights Intrado's commitment to help the public safety community transform PSAP operations and the entire 911 response continuum through data-driven solutions," said Jeff Robertson, President of Intrado Life & Safety. "This inaugural event is an excellent opportunity to hear from a wide variety of experts about the technologies shaping the future of 911. Discussions will include common myths and concerns about future emergency communication technologies and insightful conversations about how the 911 community can embrace digital advances."
